Homework 0

Brief Data Set Sumamry:

- Number of unique chicks: 50

- Total observations: 578

- Average number of observations per Chick: 11.56

- Number of Chicks with complete observation period: 45; number with last time before time $= 21$: 5

- Number of observations for Chicks with incomlete data (maximum number of observation periods is 12):

Chick ID	N observed Periods	Last Observed Time
8	11	20
15	8	14
16	7	12
18	2	2
44	10	18
